Congenital Cardiac Surgery

Dr. Alfred Blalock, Chief of the Department of Surgery at the Johns Hopkins Hospital from 1941 to 1964. One of the historical milestones of congenital cardiac surgery was performed at the Johns Hopkins Hospital on November 29th, 1944. Up to that day, most infants and children with congenital heart disease (the then so-called "blue babies") had in fact no hope for cure, and died as a consequence of their heart condition.
