## **Crisis In Higher Education A**

Without taking serious steps to resolve these problems, the crisis in higher education is going to continue to grow. This crisis is not only endangering the futures of those working in academia, but the futures of all students, as well as the health of our country's democracy and economy.

## **The Crisis in Higher Education | HuffPost**

The core product — teaching and learning — has come under attack for dubious quality. Higher education is indeed in crisis. But the industry has, in fact, been mired in a downward spiral long before COVID-19 invaded campuses. The pandemic situation has exacerbated existing problems and exposed higher education's soft and vulnerable underbelly.
