But differentiated instruction is about more than remembering which period you teach which subject. It's about how

Get Free Differentiated Instructional Strategies For Science Grades K-8

to teach to the kids science "clicks" with, while at the same time reaching the ones who spend class wishing you'd lose control of that Bunsen burner so it'd send the whole lab up in flames.

Methods of Differentiation for Teaching Science

This is where differentiated instruction

Get Free Differentiated Instructional Strategies For Science Grades K-8

and assessment comes in. Teachers need to create a variety of entry points to ensure that student differing abilities, strengths, and needs are all taken into consideration. Students then need varying opportunities to demonstrate their knowledge based on the teaching, hence differentiated assessment.
