Find the right TPMS sensor and service parts for the year / make / model you're working on. Our REDI-Sensor application look up not only identifies the correct TPMS sensor and service parts for your vehicle applications, it also gives you TPMS sensor installation and relearn instructions, service tips and videos, and shows you where to buy REDI-Sensor, online or from a distributor near you.

REDI-Sensor™ TPMS application look up - VDO Redi-Sensor

A tire pressure monitoring system (TPMS) uses sensors in your tires to tell if one or more of your tires are under-inflated. A low tire pressure light or TPMS light on your dash indicates that your air pressure is more than 25% below the manufacturer's recommended inflation. Continuing to drive with tire pressure that low is very dangerous - it can result in erratic handling, reduced braking capability, and even a vehicle rollover during sudden changes in direction.
