1.6 Geological Time In 1788, after many years of geological study, James Hutton, one of the great pioneers of geology, wrote the following about the age of Earth: The result, therefore, of our present enquiry is, that we find no vestige of a beginning — no prospect of an end. [1] Of course he wasn't exactly correct, there was a beginning and there will be an end to Earth, but what he was ...

1.6 Geological Time - Physical Geology

This exercise begins to make time more "three dimensional" and most importantly, students gain a better appreciation for geologic time and our Earth's history. Instructions To better understand the concept of geologic time, have students produce a time-scale metaphor to share with the class that is true to scale and reflects some of the important events in the history of the Earth (see list on ...
