In South Korea, English is a language of utmost importance, sought with an unprecedented zeal as an indispensable commodity in education, business, popular culture, and national policy. This book investigates how the status of English as a hegemonic language in South Korea is constructed through the mediation of language ideologies in local discourse. Adopting the framework of language ...

The complex ways in which these ideologies are reproduced, contested, and negotiated through specific metalinguistic practices across diverse sites ultimately contribute to a local realization of the global hegemony of English as an international language.

### The Local Construction of a Global Language

Language ideologies are conceptualizations about languages, speakers, and discursive practices. Like other kinds of ideologies, language ideologies are pervaded with political and moral interests and are shaped in a cultural setting. To study language ideologies, then, is to explore the nexus of language, culture, and politics.
