Htc Desire S Off Guide

S-On stands for Security On, so naturally, S-Off stands for Security Off. HTC does this to protect the storage partitions, but this can make it a hassle for those who want to do certain modifications. Not all mods require S-Off, but the ones that do will say that S-Off is required. A popular mod that requires S-Off is one that will let you use the unlocked HTC 10 (bought directly from HTC), on the Verizon Wireless network. Related:

Gaining S-Off on most Android devices is quite straightforward as it involves merely tinkering with the radio ROM and replacing it with one that has the security flag removed. On the HTC Desire though, HTC has used some advanced mechanism that does not let you use the conventional method, and that's where this hack comes handy.
