Radio-Locator.com

Online radio is either pre-recorded MP3 files or live, via-a-microphone broadcasts that are streamed over the Internet. With online radio, you are not limited to one geographic area or dependent upon syndication partners picking up your show in order for it to be heard. It can be heard all over the world.

The Ultimate Guide: What Is Online Radio and How Does It Work?

Internet radio interfaces On paper, most internet radios sport the same basic feature set: they stream music from the web either in the format of an online radio station or a streaming music service like Spotify. But that's pretty much where the similarities end, because each internet radio brings its own interface to the table.
