Regional transformation has emerged as a major topic of research during the past few decades, much of it seeking to understand how a region changes into a zone of conflict or cooperation and how and why some regions remain in perpetual conflict. Although the leading theoretical paradigms of international relations have something to say about regional order, a comprehensive treatment of this ...

International Relations Theory and Regional Transformation ...

Although the leading theoretical paradigms of international relations have something to say about regional order, a comprehensive treatment of this subject is missing from the literature. This book suggests that cross-paradigmatic engagement on regional orders can be valuable if it can generate theoretically innovative, testable propositions and policy-relevant ideas.

Theories of integration have mainly been developed to explain European integration. Europe was the region of the world, where regional integration started in the early 1950s with the European Coal and Steel Community (ECSC) in 1952. Ernest Haas theorized this experience in *The Uniting of Europe*

Theory and Practice of Regional Integration

Introduction. The literature on leadership in international affairs is interdisciplinary and, of course, extensive. For the purpose of this bibliography, leadership is considered as the art of influencing people, organizations, and institutions to accomplish specific purposes, such as missions that serve public and national interests.

Leadership in International Affairs - International ...

Thus our argument here is that in most international conflicts, a regional organisation would be preferable as a mediator to the UN, because of (a) its superior knowledge of local conflicts, and strong incentives to resolve them, (b) proximity to a conflict, and ability to react faster, and (c) the ability of a regional

...

Functionalism is a theory of international relations that arose during the inter-War period principally from the strong concern about the obsolescence of the State as a form of social organization. Rather than the self-interest of nation-states that realists see as a motivating factor, functionalists focus on common interests and needs shared by states (but also by non-state actors) in a ...
