The term marketing engineering can be traced back to Lilien et al. in "The Age of Marketing Engineering" published in 1998; in this article the authors define marketing engineering as the use of computer decision models for making marketing decisions. Marketing managers typically use "conceptual marketing", that is they develop a mental model of the decision situation based on past experience, intuition and reasoning.

- The marketing strategies supporting the innovation do not influence the adoption process: Considerable research has been devoted to incorporating the impact of marketing variables, particularly price, advertising, and selling effort. We described the generalized Bass model, which represents one way to relax this assumption.
