You can also look at their Top10 eBooks collection that makes it easier for you to choose.

Ranger Strength And Conditioning Manual

The game of baseball requires strength, speed, power, endurance, core strength, agility, balance and coordination (hand/eye and hand/foot). To improve these qualities it is necessary to “build from the ground up”, by developing explosive legs, a strong and stable core (abdomen, low back, and hip girdle), strong back, stable scapula, mobile thoracic spine and strong mobile shoulders and arms.

The game of baseball requires strength, speed, power, endurance, core strength, agility, balance and coordination (hand/eye and hand/foot). To improve these qualities it is necessary to “build from the ground up”, by developing explosive legs, a strong and stable core (abdomen, low back, and hip girdle), strong back, stable scapula, mobile thoracic spine and strong mobile shoulders and arms.

12 Week Conditioning Program - Ranger Strength

The game of baseball requires strength, speed, power, endurance, core strength, agility, balance and coordination (hand/eye and hand/foot). To improve these qualities it is necessary to “build from the ground up”, by developing explosive legs, a strong and stable core (abdomen, low back, and hip girdle), strong back, stable scapula, mobile thoracic spine and strong mobile shoulders and arms.

Strength Training - Ranger Strength

Ranger missions require strength, endurance, and movement skills...excelling in only ... strength and conditioning coaches. It is somewhat different than the 5-step warm-up described in the Army's Physical Fitness Training FM (circa 1980s). While that warm-up

RAW PT, v.4 - Fort Benning

Five years ago, Major Mark Ivezaj went searching for a better training program for the men under his command in Alpha Company, 3rd Battalion, 75th Ranger Regiment—one of the most elite units in the U.S. Army.He found that program and more under the guidance of world-class powerlifter Matt Wenning, who at the time was training at legendary Westside Barbell in Columbus, OH.

DEC '09 The concept for the Ranger human performance initiative that eventually became "RAW" dates from the summer of 2005. At this time, the battalions had several years of experience with civilian strength and conditioning coaches. These coaches came from diverse backgrounds and this was reflected in their approach to training.

Functional Range Conditioning (FRC), created by @drandreospina, is essential to incorporate into your practice.FRC focuses on improving mobility. Mobility, in an FRC sense, is defined as STRENGTH + CONTROL in order to expand upon usable ranges of motion, articular resilience (i.e. load bearing capacity), and overall joint health.
