Vespa Manual Or Automatic

The handlebars of an automatic transmission Vespa mimic those of a bicycle, with two brake levers. The rider turns the throttle and goes without the need to manually change gears. On a manual transmission scooter, like on most motorcycles, the left brake lever is the clutch and the rear brake pedal is located on the floor panel.

What you should know before buying your first Vespa ...

The Vespa has an automatic transmission, it's easy to drive even though we always suggest to have previous experience driving scooter. If you have a car driving license you can drive the Vespa 50cc but if police pull you over and you don't have the international driving license they could make you a fine. If you have any other questions don't hesitate to contact with us.
